

TOM RENARD

Front-End Developer

tom.renard@zoho.com
+33 6 35 59 83 66
www.tomrenard.xyz

Tech-savvy with a business background, I am having a blast building interfaces thanks to **React.js**, **ES6**, **HTML** and **CSS-in-JS** for more than 1 year. Always willing to dig deeply into **JavaScript** and its ecosystem.

/TECHNICAL SKILLS

React, ES6, Ruby-on-Rails, HTML, CSS, Gatsby/Next, GraphQL, Apollo, MongoDB, Git

/EXPERIENCES

Front-End Developer

Acme-Sight

JAN. 2021 TO JUNE. 2021

- Part of the Front-end team as a freelancer
 - Developed responsive templates of e-commerce applications and single page apps
- Stack:** React, Gatsby, CSS-in-JS (Styled-Components), PrestaShop/WooCommerce

Full-Stack Developer

Self-employed

SETP. 2020 TO JUNE. 2021

- Developed responsive web-applications according customers needs and following the best practices in order to deploy professional and efficient websites
- Stack:** React, Next.js, GraphQL, Apollo, MongoDB, PostgreSQL, Ruby-on-Rails

UX Content Specialist

N26

JAN. 2019 TO SEPT. 2020

- Defined content strategy of a fin-tech website, landing pages, blog post, CRM activities and other ad-hoc tasks targeted to French audience
- Closely worked with developers and designers to implement user-centric content

Previous Experiences:

- 2-years apprenticeship as a **Sales Specialist** at Philips Lighting (Paris - FR, 2016-18)
- 1-year apprenticeship as a **Digital Marketing Specialist** in the real estate division of Crédit Mutuel (Nantes - FR 2015-16)

/PROJECTS *Available here: github.com/tomrenard*

Rêves d'Événements

Events agency website

An events agency website which showcase a portfolio of few events types used to generate BtoB leads.

Stack: React, Gatsby, Sanity, GraphQL, Styled Components, Netlify

Ghost Pepper

Pizza's restaurant website

A pizza restaurant web app where customers can get to know the menu, filter the pizzas regarding the toppings and order them via a bot safe form.

Stack: React, Gatsby, Sanity, GraphQL, Styled Components, Netlify

Other Projects:

- **Vinyls Library:** a React app linked to Discogs API to manage your vinyls library (CRUD)
- **Q-Less:** a Ruby-on-Rails app which lists cultural events and informs the users about the live waiting time
