

# TOM RENARD

## Front-End Developer

tom.renard@zoho.com  
+33 6 35 59 83 66  
[www.tomrenard.xyz](http://www.tomrenard.xyz)

Tech-savvy with a business background, I am having a blast building interfaces thanks to **REACT.JS, ES6, HTML** and **CSS-in-JS** for more than 1 year. Always willing to dig deeply into **JavaScript** and its ecosystem.

### /TECHNICAL SKILLS

React, ES6, Ruby-on-Rails, HTML, CSS, Gatsby, GraphQL, Netlify, Git

### /EXPERIENCES

#### Full-Stack Developer

Self-employed

*SEPT. 2020 TO PRESENT*

- Developing websites using Gatsby, Sanity, React, and GraphQL
- Building E-Commerce apps with WooCommerce
- Supporting customers across SEO/Content strategy

#### Front-End Developer

*Acme-Sight*

*JAN. 2021 TO JUNE. 2021*

- Part of the front-end and integration team as a freelancer
- Developed front-end of e-commerce applications
- Integrated templates on PrestaShop and WooCommerce

#### Content Marketing Specialist

*N26*

*JAN. 2019 TO SEPT. 2020*

- Wrote original content for the fin-tech website, landing pages, blog post, CRM activities and other ad-hoc tasks targeted to French audience
- Closely worked with developers and designers to implement user-centric content

#### Previous Experiences:

- 2-years apprenticeship as a **Sales Specialist** at Philips Lighting in Paris, 2016-2018.
- 1-year apprenticeship as a **Digital Marketing Specialist** in the real estate division of Crédit Mutuel, 2015-2016.

### /PROJECTS *Available here: [github.com/tomrenard](https://github.com/tomrenard)*

#### Rêves d'Événements

Events agency website

- Front-end developed using Gatsby framework and designed with CSS-in-JS
- Components interactivity created via React Hooks
- Sanity used for the Back-end, data implemented through GraphQL

#### Ghost Pepper

Pizza's restaurant website

- Gatsby/Sanity combination
- Sanity API and public API fetched
- Serverless functions hosted on Netlify

#### Other Projects:

- Q-Less: a Ruby-on-Rails app which lists cultural events and informs the users about the live waiting time
- Berlin Schlag: cultural media website coded with Ruby-on-Rails and PostgreSQL
