TOM RENARD
Front-End Developer

tom.renard@zoho.com
+33 6 35 59 83 66
www.tomrenard.xyz

Tech-savvy with a business background, I am having a blast building interfaces thanks to **React.js**, **ES6**, **HTML** and **CSS-in-JS** for more than 1 year. Always willing to dig deeply into **JavaScript** and its ecosystem.

/TECHNICAL SKILLS

React, ES6, Ruby-on-Rails, HTML, CSS, Gatsby, GraphQL, Heroku, Netlify, Git

/EXPERIENCES

Full-Stack Developer
Self-employed

SETP. 2020 TO PRESENT

- Developing websites using mainly React, Gatsby, Sanity, and GraphQL
- Building E-Commerce apps with WooCommerce, PrestaShop and Shopify
- Supporting customers across SEO/Content strategy

Front-End Developer
Acme-Sight

JAN. 2021 TO JUNE. 2021

- Part of the front-end and integration team as a freelancer
- Developed front-end of e-commerce applications
- Integrated templates on PrestaShop and WooCommerce

Content Marketing Specialist
N26

JAN. 2019 TO SEPT. 2020

- Defined content strategy for the fin-tech website, landing pages, blog post, CRM activities and other ad-hoc tasks targeted to French audience
- Closely worked with developers and designers to implement user-centric content

Previous Experiences:
- 2-years apprenticeship as a **Sales Specialist** at Philips Lighting in Paris, 2016-2018.
- 1-year apprenticeship as a **Digital Marketing Specialist** in the real estate division of Crédit Mutuel, 2015-2016.

/PROJECTS   *Available here: github.com/tomrenard*

Rêves d'Événements
Events agency website

An events agency website which showcase a portfolio of different events types used to generate BtoB leads.
Stack: React, Gatsby, Sanity, GraphQL, Styled Components, Netlify

Ghost Pepper
Pizza's restaurant website

A pizza restaurant web app where customers can get to know the menu, filter the pizzas regarding the toppings and order them via a bot safe form.
Stack: React, Gatsby, Sanity, GraphQL, Styled Components, Netlify

Other Projects:
- Q-Less: a Ruby-on-Rails app which lists cultural events and informs the users about the live waiting time
- Berlin Schlag: a cultural media website coded with Ruby-on-Rails and PostgreSQL
